To Kind attention of Stonelam

OBJECT: Fire reaction of Laminam 3+ and Laminam 12+

Dear all,

With the present document Laminam declares that in attachment you will find the classification report about fire reaction of Laminam 3+.

Considering that the result of this test is influenced by glue and fiberglass and not depend by the thickness of ceramic slab, we confirm that the result obtained for Laminam 3+ is valid also for Laminam 12+.

Best regards

Quality Department
